I think that is what we are doing when there are multiple homes on a single site. I am not sure if this is 2 sites or 1. Hopefully your maps etc... can answer that.

Hi Mark,

Sorry for the delay in responding. I also don't know if 241 and 251 are on the same well. I'm doing a bit of research on these addresses here, and don't have an answer yet. Is it true that what we have done previously if multiple homes use one well, is provide all the homes using that well with water? You might have a better handle on that than I do.

Regardless, I wanted to send you an email saying I received your email and will get back with you shortly.

Thanks,

Rob

**Subject:** pavillion water delivery question

Rob,

Have a case of musical chairs going on. 241 W. Powerline is owned by (b)(6) privacy [Landowner name] who actually lives at 426 W. Powerline. 241 has been on the approved list. I don't have well number etc... 241 W. Powerline is a rental and the former renter has moved from 241 to 251 W. Powerline that had been empty (unoccupied). 251 is also owned by Mr. (b)(6) privacy [Landowner name] and I am unable to find out if all 3 properties are supplied by a single well or?

So, long story short, 251 would like to have bottled water service?
